Carmencita

A dwarf, deep scarlet-salmon petunia that is a knock-out. The color is in the salmon range, but is deeper than anything seen so far. It is entirely different from any color yet seen in petunias. Scarlet petunias have been advertised before, but have always turned out to be only the deeper shades of rose. This is almost a true scarlet orange. The dwarf plants are covered with deeply-fringed flowers. Perfect for pots. It is proving to be very popular. About 80% grandiflora.
